

ANTI-FATIGUE MAT

32-917-7005 / 7010

Static dissipative anti fatigue mat with diamond embossed surface
Highly recommended to be used in conjunction with our ESD shoes

Physical properties:

Dimension: 610x910mm (32-917-7005)
625x1840mm (32-917-7010)
Thickness: 20mm +/- 5mm
Colour: Black with 2 yellow safety borders
Surface: Diamond embossed (anti slip)
Fittings: 2x 10mm stud + 1x 3m grounding cord

Electrical properties:

Surface resistance: $>1 \times 10^6 \Omega$
Resistance to ground: $< 1.3 \times 10^9 \Omega$
Charge decay time: < 2 seconds

Compliance to standards:

IEC EN 61340-5-1
BS 5958 part 2
EN 1815

Features:

- Durable static dissipative surface laminated with thick rubber foam base.
- Foam base provides relieve for the feet without compromising on ESD requirements.
- Diamond embossed surface offers excellent traction and anti-slip features.
- Yellow safety border is highly visible with ESD logo embedded at corners to alert workers on ESD controlled areas.
- All edges are tapered for safety to avoid tripping.
